

## **ALL SEASONS CONSTRUCTION CORP**

### **PROJECT ESTIMATOR**

All Seasons Construction Corp, a leading General Contractor, Design-Builder and Construction Manager, is seeking dedicated and aggressive candidates for this immediate opening. This is a growth opportunity for the right person. Requirements include:

- Minimum of 3 years construction estimating experience for projects with budgets to \$4M, or extensive field/project management experience with some knowledge of the estimating process; In-house training will also be provided as required.
- Experience with Timberline Estimating program or a similar computer estimating system;
- Proficiency with MS Office suite and scheduling software such as MS Project;
- Candidate must be organized and focused, be able to communicate clearly, be a team player and able to work with deadlines.
- Project management skills a plus, as this position includes assisting P.M.'s.

We offer a progressive work environment with excellent benefits package. All Seasons Construction Corp, established in 1973, performs projects throughout the upper and lower Connecticut River valley region to western Vermont and central New Hampshire.
